

Group No. :
 Project Type : UDP
 Technology : PHP
 Student Names : 1) Dhyey Kathiriya (196620307021)
 2) Aarshit Jolapara (196620307033)
 3) Anjan Lunagriya (196620307039)

Guide Name : Prof. Twinkal D. Solanki

Project Title	Description	Remarks
E - Learning Portal	This portal will have three dashboards for the institute, teacher, student respectively. There will be the following panels according to their roles Assignment, Attendance, Subjects. Queries, Assessments, Updates, timetable, etc...	
	Reference URL: https:// darshanums.in/	
E - Library	This library will have e-books that can be downloaded for free. It will have two panels, one for administrators and one for users. User can read or download books from this portal. User can also rate and request books.	
	Reference URL: https://1lib.in/	
Crime Reporting System	The Objective of the Crime Reporting System is to develop a web-based program using which people can report crime online. It provides the facility of uploading images or videos of crime scenes to ensure that police may take action immediately. It also supplies the advice of missing persons, most wanted criminals, and security tips for the awareness of people.
